

Rugged construction for any cleaning job securing you maximum performance

Lightweight and portable, the Nilfisk GM80B provides durability, high performance and efficient cleaning.

The sturdy aluminium container means that the vacuum cleaner is almost indestructible and therefore especially suitable for rough and heavy duty cleaning.

Designed for the times when you need great suction power and ease of use.

GM80B is a versatile vacuum with high suction power and can be used for both industry cleaning and integrated into production facilities. The unique multi-stage filtration system allows for adaption to special applications where high filtration level and low emission is required. Choose between two types of dust bags (fleece or paper), four different washable sack filters (Polyester, Cotton, PTFE or Nomex) and special exhaust filters with HEPA or ULPA classification. GM80B can handle every heavy duty cleaning task and has become a vacuum cleaner icon in variety of industries.

- HEPA or ULPA absolute filter version
- Aluminium construction for enhanced durability
- Light in weight, heavy duty in performance
- 12 L container capacity, 6.5L dustbag capacity
- One year commercial warranty
